You can't repair your car in your own garage when you are on a mission!  
typing "ohhmygod"(Submitted by chris) will not do anything!

Get a car that isn't an ambulance, taxi or police and drive around [slowly] until you find a woman who comes and looks into your car a few times. Soon after she has done this, she will get into the car with you. Drive on to some grass, and stop the car. The car will rock, you will get health [up to 125] and you will lose money.

Bring any messed-up car in the garrage next to the save game door and keep it inside. Let the door get closed and when it opens voila! a brand new car!

Repair cars for free:

-----

Submitted by: Viktor

If you want to repair your car for free, just drive in your car in the garage at the hideout. And when the garage opens, the car is repaired! This doesn't cost anything and you don't need to save the game.

In order to complete the 1st island just steal a banchee from the garage near 8-Ball's place then put fly mode on , type: CHITTYCHITTYBB then go to the big ramp with comes by it [which leads to the 2nd island] go through the side up the ramp as fast as you can and you'll fly over the big gap in the bridge and on to stauton island, this works also to get to the 3rd island.

if u want extreme cheats go to:

To fly a dodo:

-----

Submitted by: Kesa

First, bring the dodo to the runway or a wide road.  
Then stop for a while. Then hold the accelerate button  
and the dodo down button at once. And then you will  
see a fire coming out from the bottom side of your  
dodo, in that time you have to release the dodo down  
button. Remember to keep your velocity, do not fly  
to high or try to make a sudden turn. it will make  
your dodo fall.

How to find Lamar

-----

Submitted by: Lamar Glenn

Go to 8-balls garage and pick up lamar and you could  
drive around with him the whole game and he hepl you  
beat up gang members.

Hint:

-----

submitted by j5

Collect 10 hidden packages and the pistol will be spawned to hideout.  
Collect them 20 and the uzi will be spawned to to hideout. This can  
save LOTS of money.You can collect it 2 times. Trick is: pick it up,  
go to house, and then, when it ask to save game, say cancel, and pistol  
is again spawned. You can't repeat this 'cuz the weapon won't spawn again  
until you are busted/wasted, and you lose weapons. Then it will spawn again  
and you can repeat trick.

Hint(another):

-----

submitted by j5

If you can't win races just do this:

Get a race mission, then get ANY vehicle, drive to start, when the race  
begins, get out of it, sprint from it, press esc (to save time), type  
BANGBANGBANG then press esc again and all cars will be "BOOMED" includin'  
other race cars! Then, again get some car and win the race! Easy, isn't it?

Taxi hint:

-----

submitted by j5

Get a taxi. Select the taxi driver mission. Complete 1st fare AND, wait!  
Go collect next fare, but make sure he/she close car door on end of 0:00  
second! Now you gotta unlimited time for all next fares. Trick is over  
when you cancel taxi driver mission or exit taxi vehicle. Thing is really  
hard to do, but once you did it, all will be easy.  
Note I used cabby for this trick, not normal taxi car.

Custom music:

-----  
Submitted by: Blade

Copy some of your favorite MP3 files into the "mp3" folder in the game folder.  
Start the game and you will have a new radio station titled "mp3 player".  
Choose it to hear your own selections.

Hints:

More cars in Garage:

-----  
You can fit more than two cars in your hideout's garge than you are  
supposed to. In the second district the garage should only hold two  
cars, but you would be able to fit four in, five if they are small cars.

Park the first two cars beside each other next to the wall then park each  
car after that in front of the door, get out of the car and the door will  
open then quickly drive the extra cars in before the garage door shuts,  
therefore you can save all the cars in the garage.

Make you own radio Station:

-----  
You can copy some of your Mp3 music into the "mp3" folder found in the  
game directory. now when you start the game you will have a new radio  
station called "mp3 player" which playes your music.

Free car repair:

-----  
You can have any car you want repaired for free, if your favourite car is  
looking a bit worse for ware after that cop chase, just drive to your  
hideout and place the car in your garage, get out and let the door close,  
then step foreward to open the garage door again, and hey presto! a brand  
new car (it's even been polished). This can only be done when you're not  
on a mission.

If you have any difficulties jumping the 2nd bridge to the 3rd island,  
get a fast car like the banshee or infurnus and dont put any flying cheat  
on just speed all the way till you get right to the end of the broken part  
of the bridge and once you get there just before you fall into the water  
press (Esc) quickly, and when your in the game menu type in CHITTYCHITTYBB  
and keep your hand on accelerate and press (Esc) to go back to the game and  
watch your car fly like a rocket.

If you have any difficulties trying to get the DODO flying take it to the  
take off road, keep your hand Num 6 to turn the turret down and drive on  
the road. Once you see sparkes let go of NUM 6 but press it every 2secs to

keep the DODO balanced. (My best time is 11mins and 36secs) try beat that.

Easy Tank Money:

-----

Get 2 tanks, anyway you want to, and then simple ram one tank with another, your funds will go through the roof.

How to Fly the Tank:

-----

This might sound absurd, but it works. First enter the code to get a Tank, then enter the "Fly With Cars" cheat (codes page). Get into your Tank, turn the turret 180 degrees so it's pointing backwards and start firing the cannon rapidly. Continue doing this until you gain altitude. To turn, just turn the turret slightly. Avoid the tall buildings and you'll do just fine!

Lightless Taxi:

-----

The lightless taxi can only be caught after saving/loading, it is a glitch where the game doesn't load all items. And you save the game with the taxi lightless so it stays like that. This theory makes it POSSIBLE to get a lightless cop car!

BulletProof Barracks OL:

-----

This vehicle can be obtained when playing the "Arms Shortage" mission from Ray. During the mission, the vehicle will be BP. It will be normal before and after the mission.

BulletProof/ExplosionProof/FlameProof Bobcat:

-----

This vehicle can be obtained in the "Evidence Dash" mission from Ray. During the mission, the Bobcat that has the mission packages is BP/EP/FP. Flip the Bobcat over then push it to your hideout. Don't worry about the rest of the packages, as the game will generate another bobcat in town.

BulletProof/ExplosionProof/FlameProof Cheetah:

-----

This vehicle can be obtained in the "Turismo" mission from El Burro.

During the race, flip over one of the cheetahs than push it to your garage. Do not let it out of your sight, and wait until the turismo mission has finished.

#### BulletProof Patriot:

-----  
This vehicle can be obtained after completing the "Marked Man" mission from Ray.

#### BulletProof Securicar, ExplosionProof Securicar:

-----  
You can obtain a BP securicar in the "Van Heist" mission from Joey Leone. After damaging the vehicle, drive it to your hideout, and blow it up in your garage.  
You can obtain an EP securicar in the "Escort Service" mission from Donald Love. Shoot the vehicle to blow it up, then push it to your garage.

#### BulletProof/DamageProof/ExplosionProof/FlameProof Stetch:

-----  
This vehicle can be obtained in the "Salvatores called a meeting" mission from Toni. Once you visit Toni, head to Joeys but DON'T go into the blue field. Instead, park a vehicle near the wall on the side of the building, then enter the speed-up cheat code, then run between the vehicle and the wall, this will cause you to walk-through the wall. Then enter the Stretch and backup into the blue field, the vehicle will regenerate. Afterwards, drive it to your Staunton hideout by flying over the Callahan bridge (using the dodo physics code). Head to 8-Ball's bombshop, rig the car with a timer bomb, then activate the car-bomb in your garage and leave, don't let the door shut! After the vehicle explodes, walk out letting the door shut, so the vehicle regenerates.

#### Secret Speeder:

-----  
Go to the airport, and go/drive down the runway that the planes don't use until you get to the cliff, drop down the cliff, and there you have it - a speeder (Warning, you will lose 3 points falling down).

#### Easy Way To Evade The Police:

-----  
Here's a simple way to get the law off your tail. Do a lot of vigilante missions until you get like 1 or 2 police bribes in your safe house, now if you're fast enough, you'll get there before they get you.

#### Respawning Weapons & Items:

-----  
If you need more weapons or something extra that can respawn (like the weapons, health powerups, etc.), pick them up and go into your garage on foot and run up to the back wall. Once you do this all the items you should have picked will respawn and you can pick them up again. Do this as many times as needed.

#### Hint:

-----  
Submitted by: dimitris

In Staunton Island, in a mission called "A Drop In The Ocean", you have to collect 6 packages dropped by the plane in the sea near Yakuza's house. When you collect all 6 packages, stop the boat, leave the steering wheel, and shoot at the moon...!!! The moon (which is bigger than the normal) will become smaller...!!! You can try this many times...!!!

#### Hint:

-----  
Submitted by: dimitris

In staunton island, you can find a car (i don't remember well the car's name, it was something like "Yurt", usually driven by the colombians and has leopard seats!!!) which can hop!!! Just get in it, and press num4, num5, or num6...!!! You only need good synchronisation to make the car hop high!!!

1. Do not go to the pay&spray garage for repair if you are riding a cop car or cop van. They will be too afraid to service it. Instead, use your garage for repairing (park in your garage, let the door close & open).

2. When you find secret packages in multiples of 10, you get weapons delivered at your door-step. The order is as follows:

10 sec. packs - Pistol

20 " " - Uzi

30 " " - Grenade

40 " " - Shotgun

I haven't found more packages to find out what the rest are. You might- Good Luck!

3. Steal cop car, cop van, tank, fire engine or ambulance and press 'Num +' key to activate special missions. Complete multiples of 5 consecutive missions to get special bonuses!

4. Locations of some cars throughout Liberty city:

a. Banshee: Near 8-ball's place in Portland- inside the glass showroom. (There is also a secret package nearby.)

b. Mafia Sentinel: In front of Salvatore's House. You can find two of them any time.

c. BF Injection: In front of Maria's apartment after Whacking Salvatore, after 19:00.

5. Wanted Level 5 gets activated only after getting to 2nd island, and Level 6 after 3rd. (Even MOREPOLICEPLEASE will not override this.)

6. Go to crevices in buildings to find secret packets, if you want to play fair. of course, you don't need to, if you use the GUNSGUNSGUNS cheat to get weapons.

7. There is a payphone near Joey's place where you can find more missions. (It doesn't show up in the map.)

8. Do not save the game after you have activated the cheat in which people fight each other. If you do, you'll never be able to walk safely anywhere outside your car.

9. Don't use the tank cheat when you are in a car. The tank will appear on top the car, causing it to explode!

10. Worst cars to ride when speed is a factor for you:

a. Stallion (also Diablo Stallion)

b. Idaho

c. Perennial

Take a melee weapon and bash everyone up except the cops! The dead will leave back some guns & some weapons!  
You could run 'em over with a vehicle too!  
beware of the gang members as they could easily call for help!

Easy weapons:

-----  
Just shoot the AMMUNATION guy straight in the head he'll leave back a pistol or so!

Fun thing to do when you've completed the game:

-----  
Submitted by: sun\_walka

In GTA3, when you shoot other people's cars, they speed off in a terrific panic. This can be used to your advantage. It's easy, just hop onto the roof of a passing car and fire a few shots into it. The reaction of the driver will be sure to propel you to safety as and when needed.

Don't bother hi-jacking a car when in danger, just make sure you get on a car roof and presto, the cops can't catch you up there! Plus, riding around town on another person's speeding car makes for a great mobile turret, it's great fun, trust me, lol, the things that occur when you're riding the roofs of other people's cars are just hilarious!

Float in sky, 5000\$ rewarding flying stunt in GTA3:

-----  
Submitted by: S.D.Gopinath

Go to home in second island, from entrance go right side of main road and on the left you see a "gasoline" red banner, go inside the narrow white road leading to another main road, just opposite there is a "3" stored car parking garage, go to the top "third" floor you see a racing sloped ramp leading up to a road park below, from ramp just on opposite you see a zebra crossing white lines painted on the floor and there you see a single taxi parked there, remove that taxi from there for clearing the take off path.Now pick a faster sport car or the taxi itself, go back to that end,and type the gravity cheat "chitty chittybb" and speed up your car towards the sloped ramp and take off from the building towards the park road.you will experience the real thrill in the game,floating in the sky for really 3 min and finally land after crossing the park on a road. you will then be rewarded "5000 \$\$ dollars" with a note " A great Stunt" So, do this for a thrilling and 5000\$ rewarding flying stunt.

When you start to play the game you can not go everywhere in the other city's by bridge because roads are closed but i can tell you how to go there. First go in a subway and travel by train to anywhere you want to go. You can also take a car in the subway , After you reach there you cant get on the main road because subways are also closed. So stand in front of a running train in the middle of the track and let the train go over you. Due to some technical problem you will go under the land and something rubbish happens and you find yourself on the main road. Try this repeatedly. Dont forget to use health cheat while doing this,
